Career with professional challenges

At EG, we put the customer's needs first, and this requires a dedicated and professional team. Without our core of industry specialists, EG is just a name. It is our people who make us Scandinavia's most successful IT partner.

We never sit still at EG. Developing industry-specific solutions is embedded in our DNA, and we move with our customers and their markets. This requires us to be at the forefront of developments, and it requires commitment and innovative thinking from you when new challenges arise.

Technologically, we are leading in our field. You will therefore not only work with the latest platforms and products, but also contribute to developing and improving them as we work towards our common goal of creating added value for our customers.

Fruitful basis for results

We set high standards for all EG employees, and you should expect the same high standards from us as talent needs to be nurtured to flourish. Therefore, you can expect:

- A challenging job with plenty of opportunities for gaining new knowledge
- Personal and professional development through interaction with colleagues and management * Freedom and personal responsibility to structure your own workday
- Good career opportunities in an organisation that never stands still
- Good working conditions with proper handling of regulations, salaries, pensions, benefits and everything else you would expect from a market-leading company.

Our company culture is based on a number of core values, which determine how our management and employees see the world and act towards it.

Our values are the foundation of our company culture, and guide our decisions and actions along the path to joint and individual success.

Tune in

We listen carefully to our customers' needs. Therefore, we are always leading the way when it comes to developing and offering solutions to meet changing customer needs.

Team Up

We work closely together, allowing customers to reap the full benefits of all the services we offer.

Aim High

We aim high, and take responsibility for living up to customer expectations and challenging them in relation to their habits and routines, ensuring they get the best solution for their business.

Young Professionals

At EG you will get a good start in your career in the IT and consultancy industry. You will get the opportunity to work with some of the most talented people in the industry and become part of exciting projects in which innovation and technology are key elements.
